

ersion 3.0	Revision Date 12/09/2021	Print Date 12/09/2021
ECTION 1. PRODUCT AND C	COMPANY IDENTIFICATION	
Trade name	: ZESTON® Perma-Weld® Clear	Adhesive
Manufacturer or supplier's	details	
Company	: Johns Manville	
Address	: P.O. Box 5108	
T . I I	Denver, CO USA 80127	
Telephone	: +1-303-978-2000	
Emergency telephone number	: 24-Hour Number: +1-800-424-9	
Company	: Johns Manville Canada Inc.	
Address	: 5301 42 Avenue	
	Innisfail, AB Canada T4G 1A2	
Telephone	: +1-303-978-2000	
Emergency telephone number	: 24-Hour Number: +1-800-424-9	300 (CHEMTREC)
Recommended use of the	chemical and restrictions on use	
Recommended use	: Adhesives	
Restrictions on use	: For professional users only.	
Prepared by	: productsafety@jm.com	

SECTION 2. HAZARDS IDENTIFICATION

GHS classification in accordance with 29 CFR 1910.1200 (OSHA HCS 2012) and the Hazardous Products Regulations (WHMIS 2015)

GHS label elements Hazard pictograms	:	\wedge \wedge \wedge
Specific target organ toxicity - single exposure	:	Category 3 (Respiratory system, Central nervous system)
Carcinogenicity	:	Category 2
Serious eye damage	:	Category 1
Flammable liquids	:	Category 2

Hazard pictograms	:	
Signal word	:	Danger
Hazard statements	:	H225 Highly flammable liquid and vapour. H318 Causes serious eye damage. H335 May cause respiratory irritation. H336 May cause drowsiness or dizziness. H351 Suspected of causing cancer.

rsion 3.0	Revision Date 12/09/2021	Print Date 12/09/202
Precautionary statements	 Prevention: P201 Obtain special instructions b P202 Do not handle until all safety and understood. P210 Keep away from heat/spark No smoking. P233 Keep container tightly close P240 Ground/bond container and P241 Use explosion-proof electric equipment. P242 Use only non-sparking tools P243 Take precautionary measure P261 Avoid breathing dust/ fume/ P271 Use only outdoors or in a we P280 Wear protective gloves/ pro- face protection. 	y precautions have been rea s/open flames/hot surfaces. d. receiving equipment. cal/ ventilating/ lighting c. es against static discharge. gas/ mist/ vapours/ spray. ell-ventilated area.
	Response: P303 + P361 + P353 IF ON SKIN all contaminated clothing. Rinse s P304 + P340 + P312 IF INHALED and keep comfortable for breathin CENTER/doctor if you feel unwell P305 + P351 + P338 + P310 IF IN water for several minutes. Remov and easy to do. Continue rinsing. CENTER/doctor. P308 + P313 IF exposed or conce attention. P370 + P378 In case of fire: Use of alcohol-resistant foam to extinguis	kin with water/shower. D: Remove person to fresh a Ig. Call a POISON NEYES: Rinse cautiously w e contact lenses, if present Immediately call a POISON erned: Get medical advice/ dry sand, dry chemical or
	Storage: P403 + P233 Store in a well-venti tightly closed. P403 + P235 Store in a well-venti P405 Store locked up.	
	Disposal: P501 Dispose of contents/contain accordance with local, regional, n regulations.	
Other hazards None known.		

Chemical nature

Adhesives

Hazardous components

Chemical name	CAS-No.	Concentration (%)		
tetrahydrofuran	109-99-9	>= 30 - < 60		
2-butanone	78-93-3	>= 30 - < 60		
Actual concentration or concentration range is withheld as a trade source				

Actual concentration or concentration range is withheld as a trade secret

Version 3.0	Revision Date 12/09/2021	Print Date 12/09/2021

SECTION 4. FIRST AID MEASURES

General advice	 Handle in accordance with good industrial hygiene and safety practice. Show this safety data sheet to the doctor in attendance. Move out of dangerous area. Do not leave the victim unattended.
If inhaled :	 Remove to fresh air immediately. Get medical attention immediately. If breathing is irregular or stopped, administer artificial respiration.
In case of skin contact	In case of contact, flush skin with plenty of water for at least 5 minutes. Call a physician if irritation develops or persists.
In case of eye contact	 In case of contact, immediately flush eyes with plenty of water for at least 30 minutes. If easy to do, remove contact lens, if worn. Protect unharmed eye. Continue rinsing eyes during transport to hospital.
If swallowed :	 DO NOT induce vomiting unless directed to do so by a physician or poison control center. Gently wipe or rinse the inside of the mouth with water. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician or Poison Control Centre immediately.
Most important symptoms and effects, both acute and delayed	Causes serious eye damage. May cause respiratory irritation. May cause drowsiness or dizziness. Suspected of causing cancer if inhaled.
Protection of first-aiders	If potential for exposure exists refer to Section 8 for specific personal protective equipment.

SECTION 5. FIREFIGHTING MEASURES

Suitable extinguishing media	:	Carbon dioxide (CO2) Dry chemical Foam Water spray
Unsuitable extinguishing media	:	High volume water jet
Specific hazards during firefighting	:	Evacuate area. Prevent the creation of flammable or explosive concentrations of vapour in air and avoid vapour concentration higher than the occupational exposure limits.
Hazardous combustion products	:	carbon oxides nitrogen oxides chlorine compounds
Specific extinguishing methods Further information	:	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Ground and bond container and receiving equipment. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Keep container tightly closed.

Version 3.0	Revision Date 12/09/2021	Print Date 12/09/2021
Special protective equipment for firefighters	 Take action to prevent static discluse explosion-proof electrical/ veuse non-sparking tools. In the event of fire, cool tanks with Prevent fire extinguishing water fir water or the ground water system In the event of fire, wear self-cont 	ntilating/ lighting equipment. h water spray. rom contaminating surface

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures	:	Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak. Use personal protective equipment. Ensure adequate ventilation. Remove all sources of ignition. Pay attention to flashback. Beware of vapours accumulating to form explosive concentrations. Vapours can accumulate in low areas. Refer to protective measures listed in sections 7 and 8.
Environmental precautions	:	Should not be released into the environment.
Methods and materials for containment and cleaning up	:	Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Keep in suitable, closed containers for disposal.

SECTION 7. HANDLING AND STORAGE

Advice on protection against fire and explosion	:	Use explosion-proof equipment. Electrical equipment should be protected to the appropriate standard. Take measures to prevent the build up of electrostatic charge. Use only in area provided with appropriate exhaust ventilation. Keep away from open flames, hot surfaces and sources of ignition. Vapours are heavier than air and may spread along floors. Prevent the creation of flammable or explosive concentrations of vapour in air and avoid vapour concentration higher than the occupational exposure limits.
Advice on safe handling	:	For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area.
Conditions for safe storage	:	Keep containers tightly closed in a dry, cool and well- ventilated place. To maintain product quality, do not store in heat or direct sunlight. Use explosion-proof equipment. Keep away from sources of ignition - No smoking.
Materials to avoid	:	Keep away from oxidizing agents and strongly acid or alkaline materials.

Version 3.0		Revision Date 12/09/2021	Print Date 12/09/2021
Recommended storage temperature	:	10 - 25 °C	
Storage period Further information on storage stability	:	12 Months Keep tightly closed in a dry, cool a	nd well-ventilated place.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Components with workplace control parameters

Components	CAS-No.	Value type (Form of exposure)	Control parameters / Permissible concentration	Basis
tetrahydrofuran	109-99-9	TWA	50 ppm	ACGIH
		STEL	100 ppm	ACGIH
		TWA	200 ppm 590 mg/m3	NIOSH REL
		ST	250 ppm 735 mg/m3	NIOSH REL
		TWA	200 ppm 590 mg/m3	OSHA
2-butanone	78-93-3	TWA	200 ppm	ACGIH
		STEL	300 ppm	ACGIH
		TWA	200 ppm 590 mg/m3	NIOSH REL
		ST	300 ppm 885 mg/m3	NIOSH REL
		TWA	200 ppm 590 mg/m3	OSHA

Biological occupational exposure limits

Components	CAS-No.	Control parameters	Biological specimen	Samplin g time	Permissible concentratio n	Basis
tetrahydrofuran	109-99-9	Tetrahydrof uran	Urine	End of shift (As soon as possible after exposure ceases)	2 mg/l	ACGIH BEI
2-butanone	78-93-3	methyl ethyl ketone	Urine	End of shift (As soon as possible after exposure ceases)	2 mg/l	ACGIH BEI
Engineering measures		e only in an are tilation.	ea equipped	with explos	ion proof exha	aust

Provide exhaust ventilation close to floor level.

Maintain air concentrations below occupational exposure standards.

Version 3.0	Revision Date 12/09/2021	Print Date 12/09/2021
Personal protective equipment		
Respiratory protection :	: General and local exhaust ventilation is recommended to maintain vapor exposures below recommended limits. Whe concentrations are above recommended limits or are unknown, appropriate respiratory protection should be worn Follow OSHA respirator regulations (29 CFR 1910.134) and use NIOSH/MSHA approved respirators. Protection provide by air purifying respirators against exposure to any hazardous chemical is limited. Use a positive pressure air supplied respirator if there is any potential for uncontrolled release, exposure levels are unknown, or any other circumstance where air purifying respirators may not provide adequate protection.	
Hand protection		
Material :	Solvent-resistant gloves	
Remarks :	Please observe the instructions re breakthrough time which are provi gloves. Also take into consideration conditions under which the product danger of cuts, abrasion, and the	ided by the supplier of the on the specific local ct is used, such as the contact time.
Eye protection :	Wear safety glasses with side shie Wear face-shield and protective si problems.	
Skin and body protection :	Wear protective clothing, such as pants. Remove and wash contaminated	C C
Hygiene measures :	Handle in accordance with good in practice. Written instructions for handling m place. Contaminated work clothing shoul workplace.	ndustrial hygiene and safety nust be available at the work

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance Colour Odour Odour Threshold	 liquid colorless strong, irritating, hydrocarbon-like No data available
рН	: Not applicable
Melting point/freezing point Initial boiling point and boiling range Flash point	: not determined : > 60 °C : > -17 °C
Evaporation rate Flammability (solid, gas) Upper explosion limit	 No data available No data available 11.8 %(V)
Lower explosion limit	: 1.8 %(V)
Vapour pressure	: 213.3 hPa (25 °C)

ersion 3.0		Revision Date 12/09/2021	Print Date 12/09/2021
Relative vapour density	:	> 1(Air = 1.0) Vapors are heavier along the floor and in the bottom of the floor and in the bottom of the botto	
Relative density Density	-	No data available 0.8 - 1.1 g/cm³ (25 °C)	
Solubility(ies) Water solubility	:	soluble	
Solubility in other solvents Partition coefficient: n- octanol/water	:	No data available No data available	
Auto-ignition temperature Thermal decomposition Viscosity		No data available No data available	
Viscosity, dynamic	:	500 - 1,400 mPa.s (25 °C)	
Viscosity, kinematic	:	No data available	
ECTION 10. STABILITY AND R	EAC	ΤΙVΙΤΥ	
Reactivity Chemical stability	:	No dangerous reaction known und Stable under normal conditions.	der conditions of normal use.

Reactivity Chemical stability Possibility of hazardous reactions	 No dangerous reaction known under conditions of normal use Stable under normal conditions. Will ignite Hazardous decomposition products formed under fire conditions.
Conditions to avoid	: Heat, flames and sparks. Electrostatic discharge
Incompatible materials	: Oxidizing agents Strong acids and strong bases Strong reducing agents
Hazardous decomposition products	 In case of fire hazardous decomposition products may be produced such as: carbon oxides nitrogen oxides chlorine compounds

SECTION 11. TOXICOLOGICAL INFORMATION

Acute toxicity	
Product: Acute oral toxicity	: Acute toxicity estimate : > 2,000 mg/kg Method: Calculation method
Acute dermal toxicity	: Acute toxicity estimate : > 2,000 mg/kg Method: Calculation method
<u>Components:</u> tetrahydrofuran: Acute oral toxicity	: LD50 (Rat, male and female): 1,650 mg/kg

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal methods		
Waste from residues	:	Dispose of contents/container to an approved facility in accordance with local, regional, national and international regulations.
		The hazard and precautionary statements displayed on the label also apply to any residues left in the container.
Contaminated packaging	:	Packaging that is not properly emptied must be disposed of as the unused product. Empty remaining contents. Dispose of as unused product. Do not re-use empty containers.

Version 3.0

Revision Date 12/09/2021

Print Date 12/09/2021

Do not burn, or use a cutting torch on, the empty drum.

SECTION 14. TRANSPORT INFORMATION

International transport regulations

Land transport USDOT (Special Provision 149): UN1133, Adhesives, 3, II TDG: UN1133, Adhesives, 3, II

LIMITED QUANTITY if shipped in inner packagings not over 5.0 L (1.3 gallons) net capacity each, packed in a strong outer packaging.

Sea transport IMDG: UN1133, Adhesives, 3, II

Air transport IATA/ICAO: UN1133, Adhesives, 3, II

SECTION 15. REGULATORY INFORMATION

TSCA list

TSCA - 5(a) Significant New Use Rule List of Chemicals	:	No substances are subject to a Significant New Use Rule.
U.S. Toxic Substances Control Act (TSCA) Section 12(b) Export Notification (40 CFR 707, Subpart D)	:	No substances are subject to TSCA 12(b) export notification requirements.

EPCRA - Emergency Planning and Community Right-to-Know Act

CERCLA Reportable Quantity

Components	CAS-No.	Component RQ	Calculated product RQ
		(lbs)	(lbs)
tetrahydrofuran	109-99-9	1000	1667

SARA 304 Extremely Hazardous Substances Reportable Quantity

This material does not contain any components with a section 304 EHS RQ.

SARA 311/312 Hazards	 Flammable (gases, aerosols, liquids, or solids) Serious eye damage or eye irritation Carcinogenicity Specific target organ toxicity (single or repeated exposure)
SARA 302	This material does not contain any components with a section 302 EHS TPQ.
SARA 313	This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.
Clean Air Act	

Version 3.0	Revision Date 12/09/2021	Print Date 12/09/2021		
This product does not cont Air Act Section 112 (40 CF	ain any hazardous air pollutants (HA R 61).	P), as defined by the U.S. Clean		
This product does not contain any chemicals listed under the U.S. Clean Air Act Section 112(r) for Accidental Release Prevention (40 CFR 68.130, Subpart F).				
The following chemical(s) are listed under the U.S. Clean Air Act Section 111 SOCMI Intermediate or Final VOC's (40 CFR 60.489):				
2-butanone	78-93-3	30 - 60 %		
California Prop. 65				
This product does not require a warning under the California Safe Drinking Water and Toxic Enforcement Act (Proposition 65).				
The components of this product are reported in the following inventories:				
TSCA	: On the inventory, or in comp	liance with the inventory		
DSL	DSL : On the inventory, or in compliance with the inventory			

SECTION 16. OTHER INFORMATION

Further information

Revision Date : 12/09/2021

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
