Online Training: MyWernerCo.com

Customer Service: 888.523.3371

The purpose and scope of this course is designed for end users of fall protection equipment, and does not provide any approval to train others. All train-the-trainer aspects are outside the scope of this course. Please Note: Successful completion of this course does not alone establish or authorize the individual as a Competent Person as defined by OSHA. The definition of a Competent Person requires the individual to have the authority to take prompt corrective action, and no course can provide that authority, as it can only be provided by the Employer. As a result, only the Employer, not Werner Co., can establish the individual as a Competent Person.
